### PRODUCTS

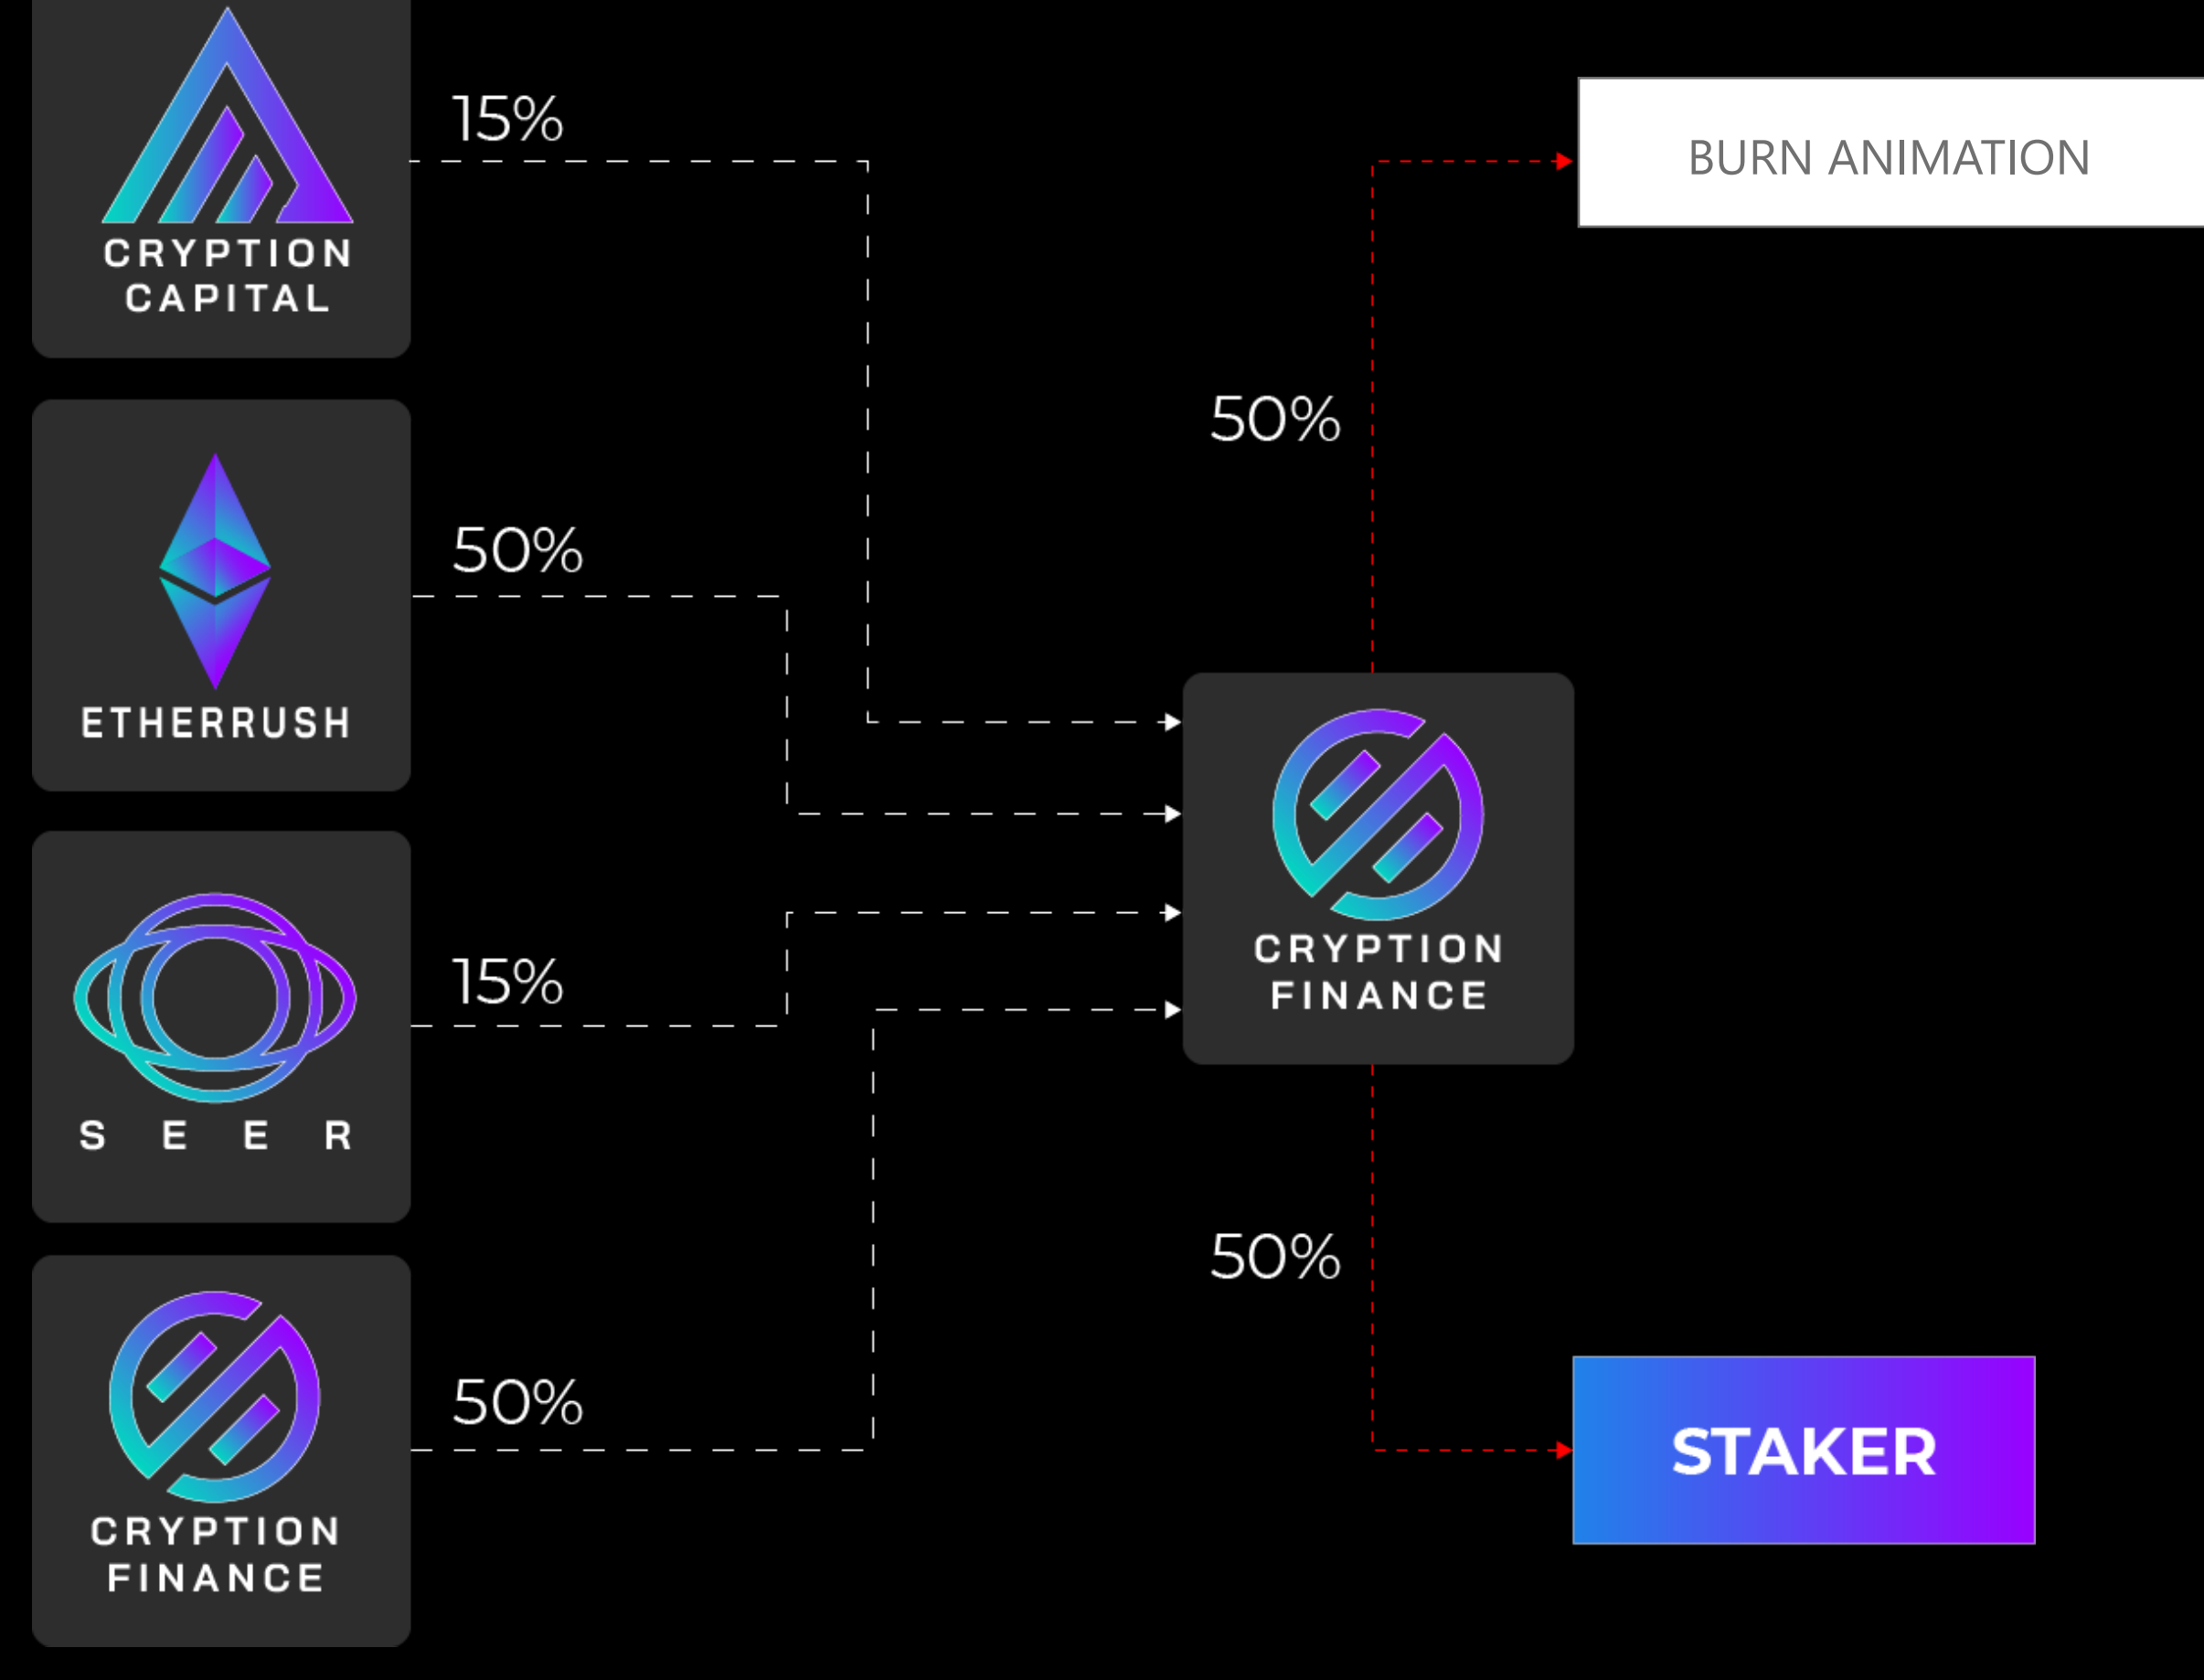

Click on the graphic to understand all the legos that make up Cryption Network

We are building a suite of user firendly crypto products for the normal retail investor who wants to invest in crypto but is intimidated by its complexity. We see a lack of an integrated ecosystem that simplifies investing without taking away from all that crypto has to offer.

ANIMATED BG

### TOKENOMICS

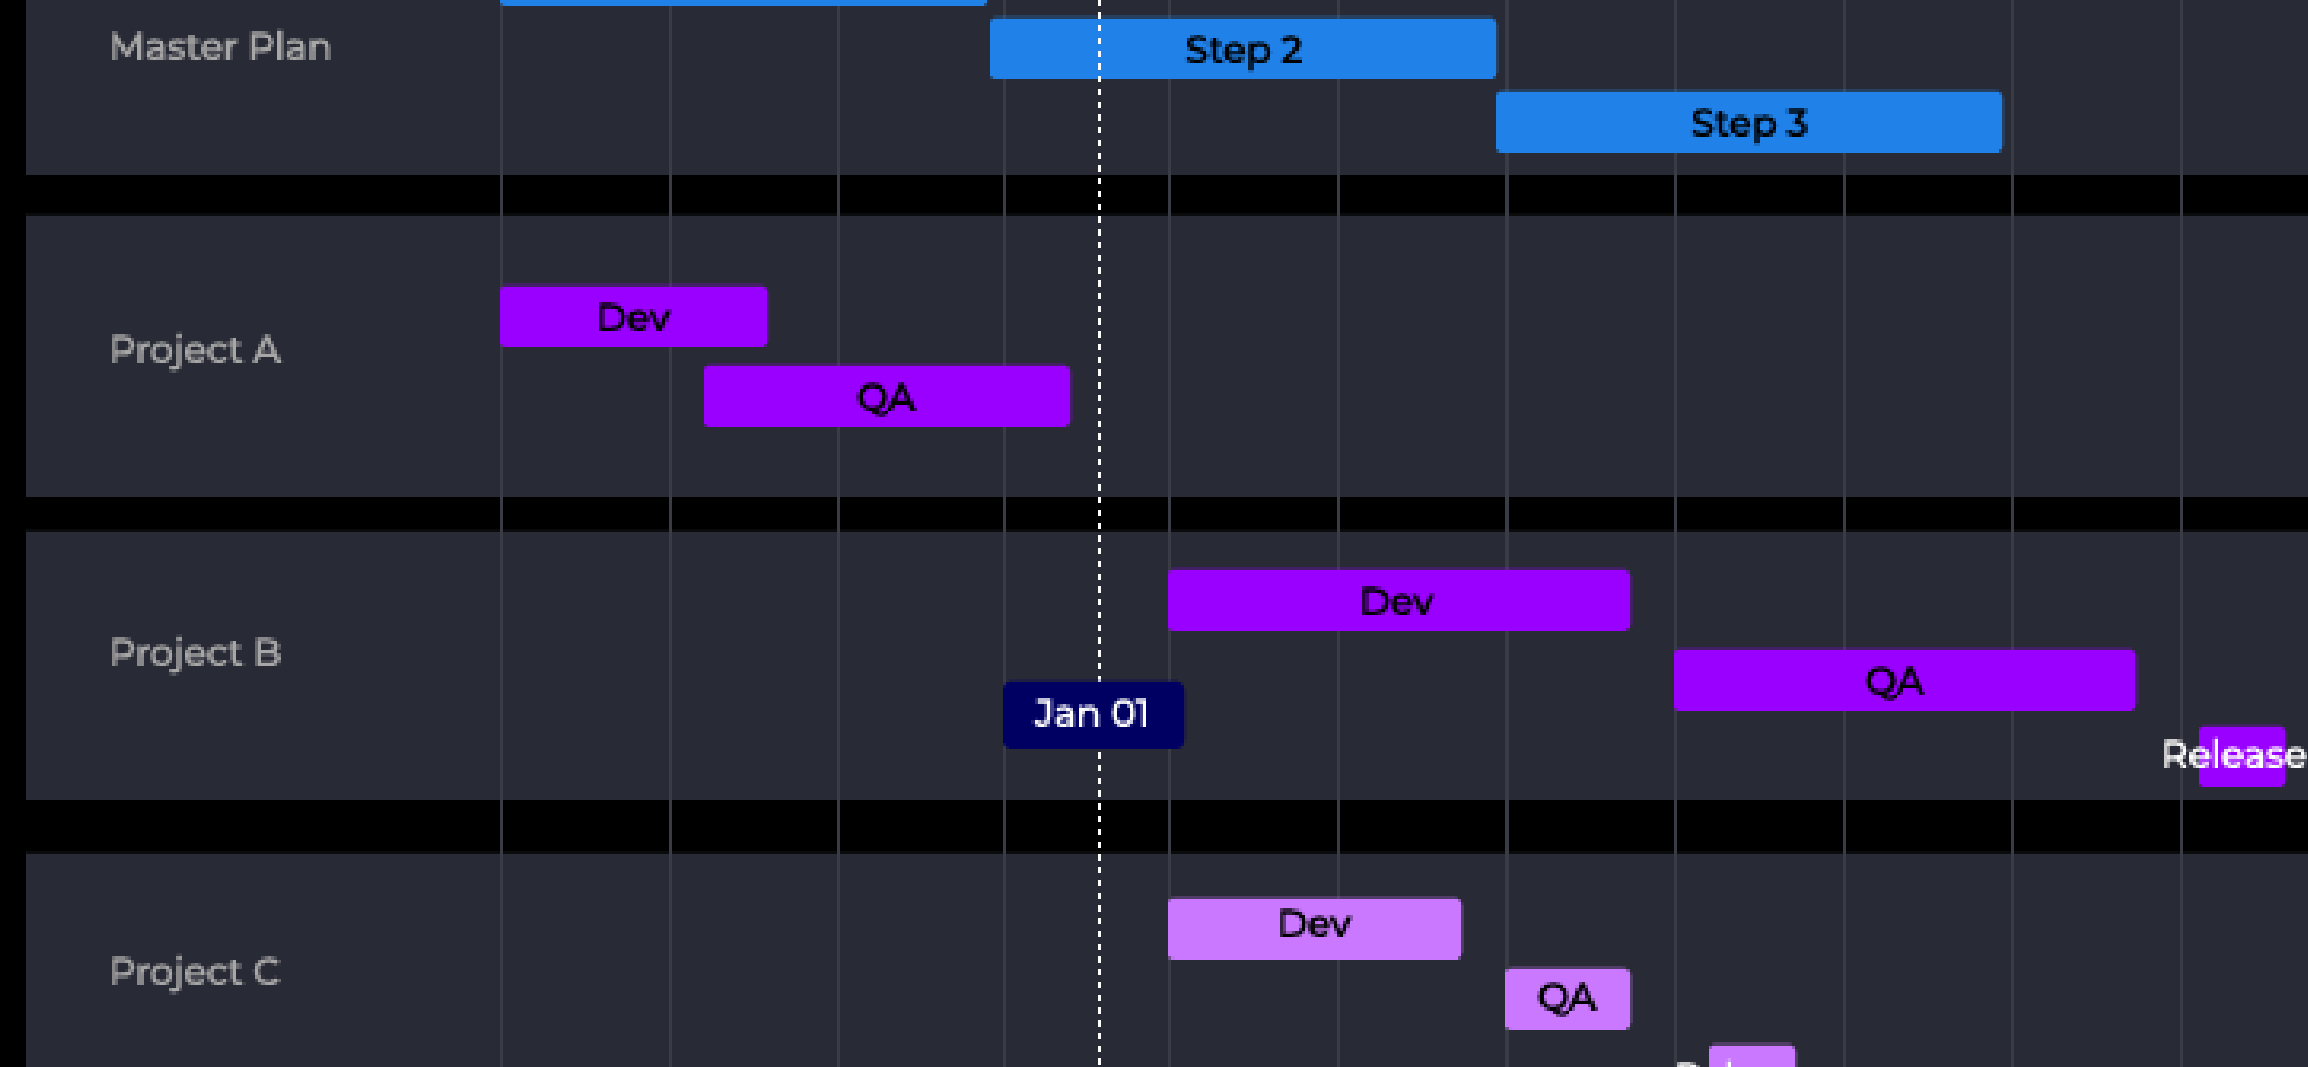

ANIMATE

Part of the profit from every Cryption Network product will be used to mainatin a constant buy pressure on CNT. Half the tokens bought from those profits will be burned to reduce supply and accrue value to the token whereas the other half will be staked for yield farming

### FEATURES

Decentralization, sound tokenomics and a great user experience are at the core of all Cryption Network Products

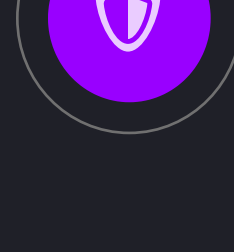

#### Sound Tokenomics

Incentivizing a strong & sustainable development of the entire ecosystem by following industry best practices.

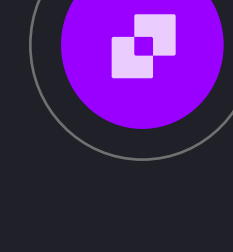

#### Gasless Transactions

Building on Layer 2 minimizes the transaction fees which are then borne by Cryption Network, thus enabling zero gas fee for users.

#### Decentralized, Scalable & Secure

Also known as the Blockchain Trilemma, we do not compromise on any of these three facets and have opted to build on Layer 2 for scalability.

#### Seamless Integration

All Cryption Network Products will be seamlessly integrated across the entire ecosystem and bundled into a single user friendly app.

### TEAM

Cras mush pardon you knees up he lost his bottle it's all gone to pot faff aboutporkies arse, barney argy-bargy

#### Prasenjit Kanade

Full Stack Developer

Currently working as full Stack Developer in react and node having experience more than 2 years in MERN Stack. He works on the APIs and backend needed to talk to the blockchain.

#### Tanmay Bhalerao

CFO

While exploiting crypto arbitrage opportunities across different exchanges back in 2016, Tanmay helped Tejas build one of the first INR markets for Ether in India. He is passionate about building DeFi & Asset Tokenization products for mass adoption. VJTI and Columbia alumnus.

#### Tejas Chitnis

CEO & Founder

Started out as a Android developer and moved to being an entrepreneur by founding Geek Crate. My love for emergent technology introduced me to blockchains and now there is no looking back.
